

Predicting the future

Super Stephanie (A1110001) Awesome Alex (A0001101)

Introduction

The future is important, so we try to predict it using messages from X.

Data

We collect X messages from Y using approach Z.

We manually labeled X messages according to Y.

Here are some statistics about the data...

Methods

We used method X to label messages according to Y.

Experiments

Here's a table summarizing our results.

Precision	Recall	F1
.5	.7	.6

Here's a figure summarizing our results.

Conclusions and Future Work
